To whom it may concern:

Having been in the real estate business in the Jupiter and Tequesta area since 1983, my team and I have worked with numerous local home inspectors over the years. We've known and worked with John Curtin, one of the area's top home inspectors, for nearly 15 years and have found John to be consistently knowledgeable and diligent with his inspections, giving fair and honest assessments. His assessments are directed & written in a non-inflammatory manner allowing real estate agents and their clients the opportunity to find resolutions in a less stressful mode rather than creating a catalyst for panic and buyer's remorse for any inspection issues that may have been found. His written reports are comprehensive, yet simple and easy to read and, if our clients are present at the inspection, John takes the time to explain and discuss his findings once his inspection has been completed.

Recommending John for his knowledge, thoroughness and ability to work with us, our clients and our schedules is an easy task and one we do with great pleasure.

Sincerely,
